16.05. 2017 № 23-4

Morgan WILLIAMS  
President  
U.S.-Ukraine Business Council  
1030 15<sup>th</sup> Street, N.W., Suite 555 W  
Washington, DC 20005

Dear Mr. Williams,

The Investment Promotion Office – Ukraine Invest ([www.ukraineinvest.com](http://www.ukraineinvest.com)), the advisory body to the Prime Minister of Ukraine, under coordination of the Government Commissioner for Investments, focuses on three areas, namely: supporting existing and new investors; increasing the ease of doing business by improving communication between the authorities, business, and international organizations; and promoting Ukraine's brand as the country where attractive opportunities exist for investors with the aim to elevate Ukraine in the global economy through investment and economic growth.

Following the Ukrainian Government's strong commitment to support and facilitate investments in Ukraine, a new instrument, web-portal InvestMonitor, is to be launched. The InvestMonitor portal is currently available at: [www.investmonitor.com.ua](http://www.investmonitor.com.ua)

The project "InvestMonitor" is aimed at constant monitoring and identifying the areas of concern for foreign business in Ukraine, targeting specific systemic impediments to business operations, as well as improving investment environment for the new and potential investors who consider Ukraine as business location.

The key objective of the project "InvestMonitor" is to develop a tool for assessing the investment environment in the regions of Ukraine on the basis of a questionnaire for investors. The results thereof are transformed in and generate the Index of Investment Environment which forms the core of the project and serves as the practical tool to conduct analysis on key constraints or destructive factors the foreign investors face in Ukraine.

Identification of major stumbling blocks on the road to creating attractive investment environment provides basis for elaboration of the efficient and valuable measures to respond to such obstacles at the regional and state levels. Moreover, the portal "InvestMonitor" is the platform to ensure reliable and effective communication channel with the Government Commissioner for Investments to help solve systemic issues and improve business environment for investors.

GOVERNMENT  
COMMISSIONER  
FOR INVESTMENTS

01008, Ukraine, Kyiv city, 12/2 Hrushevskogo

The first stage of launching the portal requires availability of the initial list of the 100 companies-respondents, which can start filling in the questionnaire and forming index in various regions of Ukraine. In this regard, we kindly ask you to act as a liaison between the team of InvestMonitor and the companies you cooperate with in order to launch the mechanism of the portal's functioning with getting the first feedback from investors across Ukraine. We invite all foreign-founded companies to participate in the survey and start using "InvestMonitor" as a communication platform.

The project is to be launched on June 1, 2017. The survey will be carrying out till the end of June with the first voting results thereof to be presented on July 1, 2017.

Semi-annual updates of the Index in 2017 and its quarterly updates starting from 2018 will allow to track the dynamics of changes per each criterion in every region (oblast).

We kindly ask you to share this information and our request to participate in voting, filling in the questionnaire, with the companies – members of the U.S.-Ukraine Business Council and the companies you cooperate with.
