

UKRAINIAN DEFENSE TECH VALLEY

USA Investment Roadshow 🇺🇸

Battle-Proven Innovation. Ready To Scale

Period: March 2026

Cities: Washington DC, New York, Austin,
San Francisco

Overview

Ukraine has built one of the world's most advanced and battle-tested defense tech ecosystems—yet it remains significantly underfunded. The Ukrainian Defense Tech Valley USA Investment Roadshow bridges this gap by connecting proven Ukrainian defense and dual-use startups with US capital, experienced investors, and strategic partners ready to scale technologies validated in real-world conditions.

About Brave1

Brave1 is the Ukrainian government's defense technology coordination platform, created to accelerate the development, testing, and deployment of cutting-edge defense and dual-use innovations. Brave1 works with startups, investors, the military, government agencies, and international partners to scale technologies that deliver real impact on the battlefield and beyond.

What to Expect

- **Startup Pitches:** Selected Ukrainian startups and scale-ups presenting battle-tested technologies across unmanned systems, AI, robotics, air defense, electronic warfare, and dual-use applications
- **Investor Participation:** Peer insights from experienced US and international VCs already backing Ukrainian defense and dual-use companies, offering candid perspectives on risks, returns, and what works.
- **Ecosystem Insights:** A data-driven overview of trends, traction, and opportunities from the Brave1 team
- **Networking:** Curated meetings with founders, investors, policymakers, and industry leaders

Who Should Attend

- Family offices, venture capital, and private equity funds
- Defense, aerospace, and deep-tech investors
- Strategic corporate partners and integrators
- Government, policy, and security stakeholders

Why You Should Attend

▪ Why attend if you are an investor?

Because Ukraine has built one of the most advanced and battle-tested defense and dual-use tech ecosystems in the world, yet it remains significantly underfunded and inefficiently priced.

▪ Why attend if you are exploring new opportunities?

Because you will meet vetted Ukrainian startups and scale-ups whose technologies have been proven in real-world conditions, not in controlled pilots or hypothetical use cases.

▪ Why attend if you want credible insight, not headlines?

Because you will hear first-hand perspectives from founders, VCs already investing in the ecosystem, and the Brave1 team, covering market dynamics, risks, and real investment outcomes.

▪ Why attend if long-term value matters?

Because the roadshow is designed to build durable relationships between Ukrainian innovators and the US defense, dual-use, and investment ecosystems, laying the foundation for long-term collaboration, not one-off transactions.

▪ Why attend now?

Because the technologies emerging from Ukraine today are shaping the future of security, resilience, and dual-use innovation—and early engagement creates a meaningful advantage.
